Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Material-UI, TailwindCSS, Bootstrap, Firebase

Back-End & Databases: SQL, MySQL, Tableau, REST APIs, Node.js

Cloud & DevOps: AWS, Vercel, IBM Cloud, Git, GitHub Actions (CI/CD)

CMS & Web Platforms: WordPress (Elementor/Divi/Avada), DotNetNuke (DNN), SEO, Wix, Google Analytics (GA4)

Design Tools: Figma

Professional Experience

Aggie Artificial Intelligence Society(AAIS)

Web Developer *COLLEGE STATION, TX | August 2023 – May 2024*

- Responsible for the frontend implementation of the official AAIS website, translating complex Figma designs into a fully functional, high-performance web application within a 5-person agile team.
- Engineered a custom retro-window UI using Next.js 14, React, and CSS Modules, ensuring pixel-perfect fidelity to original designs while maintaining a modular, scalable codebase.
- Optimized performance by implementing Next.js Image Optimization and component-based lazy loading, successfully reducing initial load times by ~1.5s and overall latency by ~25%.
- Architected a responsive layout using Flexbox and Media Queries to ensure cross-browser compatibility and a seamless user experience across mobile, tablet, and desktop devices.

Impact Group Marketing

Frontend Web Developer *COLLEGE STATION, TX | July 2024 – July 2025*

- Developed and maintained 15+ client websites through HTML, CSS, and JavaScript while achieving 99% cross-browser compatibility and improving performance scores by 20%
- Developed website features based on client requirements which resulted in 30% fewer post-launch revisions and 24-hour bug resolution from the previous three-day time frame
- Collaborated with UI/UX designers and independently contributed to visual layout and interface design, enhancing user engagement.
- Partnered with SEO and marketing teams to execute optimization plans which resulted in better client website search positions and enhanced organic visitor numbers by 25%

Texas A&M University

Frontend Web Developer *COLLEGE STATION, TX | October 2025 – Present*

- Redesigning and managing the ERC website using the Divi builder in WordPress, enhancing layout, visuals, and overall site usability.
- Improving SEO performance with optimized metadata, structured content, and accessible HTML for stronger search visibility
- Optimizing SEO through metadata updates, content structure improvements, and accessibility

Projects

Robo Mania Stem Learning (PROFESSIONAL)

- Engineered a responsive STEM education platform using React.js, React Router, and CSS3 to optimize user navigation for course enrollment.
- Developed a modular library of reusable UI components and dynamic pages to ensure a scalable codebase and consistent branding.
- Implemented interactive elements and high-performance media assets to increase student engagement and streamline the registration workflow.

CoinPulse (PERSONAL)

- Developed a live crypto tracker using WebSockets and CoinGecko API for instant price updates, trade history, and streaming OHLCV data.
- Built responsive candlestick charts with Lightweight Charts, merging historical data and live streams with multiple time-interval support.
- Optimized performance using Next.js (App Router) Server Components and React hooks like useTransition for seamless state transitions.
- Crafted a scalable UI with Tailwind CSS and Radix UI, featuring a custom useCoinGeckoWebSocket hook and interactive currency converters.

Education

Bachelor of Science in Political Science, Texas A&M University, August 2020 - December 2025

Breakaway Ministries Volunteer, Aggie Coding Club

Frontend Simplified, Bootcamp, April 2022 - August 2022
