www.linkedin.com/in/isaacfunes **|** https://eportfolio-kingtheoden1s-projects.vercel.app/**|** https://github.com/KingTheoden1

Technical Skills

Programming Languages: HTML, CSS, JavaScript, React, TypeScript, Python

Frameworks & Libraries: Material-UI, Bootstrap, TailwindCSS, React.js, Next.js, Firebase

Cloud & Infrastructure: AWS, IBM Cloud, Vercel

DevOps/CI/CD: Git, GitHub Actions, Vercel (Automated Build & Deployment Pipelines)

CMS & Web Platforms: Wordpress, Wix, DotNetNuke(DNN), Avada, Elementor, Divi, YoastSEO

Tools: Figma, APIs, GitHub, SEO Tools, Custom hooks

Professional Experience

Aggie Artificial Intelligence Society(AAIS)
Web Developer   *COLLEGE STATION, TX | August 2023 – May 2024*

- Spearheaded the development of AAIS's website from the ground up, showcasing expertise in Frontend web development
- Designed and implemented a modern, responsive user interface using HTML, CSS, and JavaScript within React, improving load times by ~1.5 seconds and engagement metrics
- Collaborated with a team of developers to build a scalable codebase that used best practices and followed clean coding principles
- Optimized website performance through efficient code structuring, cutting average latency by ~25% while maintaining cross-browser compatibility

Impact Group Marketing
Frontend Web Developer   *COLLEGE STATION, TX | July 2024 – July 2025*

- Developed and maintained 15+ client websites through HTML, CSS, and JavaScript while achieving 99% cross-browser compatibility and improving performance scores by 20%
- Developed website features based on client requirements which resulted in 30% fewer post-launch revisions and 24-hour bug resolution from the previous three-day time frame
- Collaborated with UI/UX designers and independently contributed to visual layout and interface design, enhancing user engagement.
- Partnered with SEO and marketing teams to execute optimization plans which resulted in better client website search positions and enhanced organic visitor numbers by 25%

Texas A&M University
Frontend Web Developer   *COLLEGE STATION, TX | October 2025 – December 2025*

- Redesigning and managing the ERC website using the Divi builder in WordPress, enhancing layout, visuals, and overall site usability.
- Improving SEO performance with optimized metadata, structured content, and accessible HTML for stronger search visibility
- Optimizing SEO through metadata updates, content structure improvements, and accessibility

Projects

Robo Mania Stem Learning (PROFESSIONAL)

- Developed reusable components that reduced development time for future updates by 25%.
- Utilized HTML, CSS, and JavaScript to build an attractive user interface that provided easy navigation and strong user engagement
- Implemented a CI/CD pipeline using GitHub Actions + Vercel to auto-build and deploy the site on commit, enabling stakeholders to preview changes instantly.
- Worked closely with the client team to translate requirements into polished UI/UX solutions.

CarHub Showcase (PERSONAL)

- Built a full-featured car showcase platform using React, Next.js 13 (App Router), TypeScript, and TailwindCSS.
- Implemented advanced search filtering was implemented across car models, manufacturers, and fuel types to enhance search performance.
- Implemented advanced filtering logic for fast search performance.
- Used Next.js SSR/ISR to improve data-fetching efficiency and rendering speed.
- Established a full CI/CD workflow with GitHub Actions + Vercel for automated building, testing, and deployment; used Vercel preview deployments for feature branches.

Education

Bachelor of Science in Political Science, Texas A&M University, August 2020 - December 2025
Breakaway Ministries Volunteer, Aggie Coding Club
Frontend Simplified, Bootcamp, April 2022 - August 2022
